Creed Roberts

Not many people can say that they make a living doing what they love, or that they become charged with excitement and anticipation every time they step into the office. Honestly, how many people do you know that get paid to share a personal, lifelong passion with thousands of people around the country? Most of us dream the dream but, for a lucky few, this is reality. Creed Roberts is one of the lucky ones.

A Texas native, Creed grew up with a love of western culture, particularly the cattle industry. In high school, he served as president and spokesperson for the Future Farmers of America Organization and would later compete on the rodeo team at Stephen F. Austin State University in Nacogdoches, Texas. After graduating with a BS in Agriculture, Creed discovered his talents were better served, not atop a horse or bull, but behind the microphone. He has been captivating audiences ever since.

Because of his dedication and life experience, Creed Roberts brings unparalleled professionalism and insight to any rodeo sport. From South Texas to South Dakota and New York to Las Vegas, Creed's decade-long career has taken him all over the United States. He has appeared at PRCA, PBR and CBR events and was recently selected as the voice of the National Bucking Bull Association. Creed has also made several television appearances, including a stint on NBC's hit series "Friday Night Lights."

Creed Roberts believes it is his job to be both entertaining and informative at the same time. No easy task. In 2005, this commitment paid off when Creed earned his Professional Rodeo Cowboys Association card. His dedication to the sport and its fans is superseded only by his unparalleled Texas-sized work ethic, and his enthusiasm is recognized as the gold standard in the industry.

Creed makes his home in Sealy, Texas with his wife, three children and an amazing herd of rodeo cattle on his Blood Line Bucking Stock Ranches.

Mission Statement

PROVIDE knowledge and entertainment to the fans that attend every performance, no matter how many spectators are in attendance.

REPRESENT my profession with pride. I shall be respectful to all the individuals I work with, and for. I want to be sure that WE, as a team, represent our sport as a part of American History.

ENHANCE the effects of the announcer by keeping up with the current changes in our industry. I also want to do my part to ensure that the fans receive more entertainment than the price of their ticket allows.

PROMOTE the sport of Rodeo and Bull riding by educating our fans with knowledge of the past, present, and future of our industry. It is also my job to promote the abilities and accomplishments of our athletes.
